ABOUT COMPANY

Established in the year 1988, at Mumbai (Maharashtra, India), we "Ashrafi Balloons" are renowned as one of the recognized Manufacturer, Supplier, Wholesaler, Trader and Service provider of a broad array of PVC Balloons, Printed Balloons and Party Balloons. We are India's leading Balloon Decoration provider company. Our innovative balloon decoration services are highly recognized by our esteemed clients.

Our professionals aim to mark a difference with our entire endeavour and promise to impress the clients by their creativity. The offered products are used on various occasions like Anniversary, Birthday Party, Commercial Mall, Corporate Party, Cultural Party, Dance Floor, Engagement Ceremony, Kids Party, Lawn Party, Leisure Party, Political Party, Wedding, Table party, Product Launches and various other outdoor & indoor celebrations etc.

Our professionals are totally committed for providing a superior range of products, which fulfills the various needs of the clients. For the manufacturing of the offered products, we make use of the finest grade raw material sourced from the reliable vendors of the industry. In order to examine the entire process, right from the production process to final dispatch, our highly experienced quality controllers make use of latest tools and machines for ensuring the quality of the products.

We are endowed with a voluminous warehousing facility that is divided into multiple sections to attain hassle free operation. In order to ensure damage free delivery at the customers' end, our entire product range is packed using high grade packaging material. Facilitated with warehousing and packaging unit, it is possible for us to deliver our products at customers' end within promised time frame. Moreover, our skilled quality controllers conduct various tests on these products using advanced testing tools and devices to ensure the quality of products.

OUR TEAM

We have recruited a dexterous team of professionals holding immense domain knowledge and expertise. They emphasize on specifications provided by clients and adhere to industry leading standards to satisfy all our patrons across the country. A streamlined production process is maintained by all our employees via coordinated work flow at each department. They further ensure ethical businesses and reliable relations with all our vendors & clients for smooth operations.

Our team includes the following professionals:

- ▶ Designers
- ▶ Warehousing Professionals
- ▶ Technicians
- ▶ Sales & Marketing Executives
- ▶ Quality Analysts

WHY US:

Leveraging on our high standards of quality, we have become the preferred choice of the customers.

Some of the factors that provide us competitive edge and over its competitors are:

- ▶ Exclusive house of balloons
- ▶ Ethical business policy
- ▶ High quality products and services
- ▶ Assured delight & satisfaction
- ▶ Competitive Price
- ▶ Wide distribution network
- ▶ Premium Collection
- ▶ Easy payment modes
- ▶ Delivery On Time

INFRASTRUCTURE FACILITIES

In order to be ahead of our counterparts in achieving complete client satisfaction, our company dedicates endless efforts towards timely production of bulk orders. To achieve the same, we have developed a sophisticated infrastructural facility featuring robust departments for procurement, designing, production, quality testing, packaging, warehousing and delivery. All these units are installed with latest technologies and advanced tools, equipment and machinery that ensure timely production and on-time deliveries.

QUALITY ASSURANCE

We are quality-focused player of the domain serving gift products to various sectors. Leveraging on our in-house quality testing facility, our company undertakes rigorous quality checks at each production stage. Initiating from the procurement of raw materials till the final inspection of finished products, all the stages are examined using parameters set as per international quality standards. Our final products are finalized for deliveries post their confirmation by our expert quality inspectors for designs, durability, finishing and size.

Rescue Tent

We have built a house which is very comfortable for people at the time of trouble, it does not require any bamboo, bat, metal, pipe to use it. We can get this house ready in 30 minutes at any place. This tent is very beneficial for disaster relief work, besides it is also very beneficial for marriage, rain shelter and tourist.

Kit	Punchers repatriation,	Pvc material	Leak,Nuzzle
Motor	1HP Heavy Duty Indian Made		
Sealed off Balloon Equipment	Nylon Rope Trans 3 inch Tap		
Technical Experts	Installation of Balloon	On side installation	
Labor	Installation Of Balloon	4 No Required Labour on time each balloon installation	
Transportation	As per order required mini truck	Pen india	Staying on time the installation.

Required installation	Of Balloon		
50 MTR open Space	Installation period	Only technical person other people no Nearest Of Balloon installation on time.	In case technical person need any advice call permission.
Tent Weight	100 Kg	Side Training of Installation	

MODULAR LARGE CAPACITY TENT

It is enough to decide how large area has to be covered and then to use needed number of central parts. Such surface area is large enough to hide under the roof people, cars or trucks, technical equipment or material. This is an excellent option how to create e.g. a garage for several trucks literally within one hour. You can choose red or army green colour. You can use this hall also over a long period even in winter months because it can be additionally equipped with a heating unit. For its manufacture flame-retardant, high strength materials with a long lifetime period are used. There are gates for vehicles to drive into the tent in the outside modules. The hall is very useful even due to its mobility, because it can be folded into several bags at any time and transported to another place for next use.

ADVANTAGES

- For short-term as well as longterm use
- Provides a sheltered area which can be heated
- Wide practical use - garage, repair shop, material warehouse, dining hall, general headquarters, meeting room, large-capacity accommodation of persons
- Easy handling and operation, simple installation
- Long lifetime period with minimum maintenance requirements
- Made of high-quality, flameretardant, high strength materials with a long lifetime period, abrasionresistant, resistant to solar radiation

DESCRIPTION

- Consisting of separate modules
- Front module
- Central module - option to use 1 to 3 pcs depending on the required useful area
- Rear module
- Connecting of modules by means of a sophisticated system of connectors and high strength zip fasteners
- Each module is in a separate bag for an easier transport and handling.
- There are gates for vehicles to drive into the tent in the outside modules
- There is an entrance for people on the front and rear module, optional side entrances on central modules
